## HOW TO SEARCH

Keyword	Use thought for what you are searching, and search as few words as possible.
AND	Articles in the search results have both terms present
OR	Articles will have one or both of the terms present
*	Search results where any words can be matched in place of asterisk. Ex. best * in america.
intext:	Returns only search results that match in the page's body
intitle:	Returns only search results that match in the page's title
inurl:	Returns only search results that match in the page's URL
define	Returns a definition of the given term
time	Returns the current time at a particular location. Ex. time tokyo.
to	Convert measurements. Ex. 1 cup to tbsp
weather	Brings up the weather for that location. Ex. weather las vegas
NOT	Will exclude a search term from the results
-	Excludes search results that include this item. Ex. Kansas City -Chiefs
“ “	Use quotations to group words. Ex. “World War I” will not give world, war or I; just World War I
Engines	Use more than one search engine to get different results.
